

Classroom News

Class Name: Conisbrough

Term: 4 2024-2025

What we have been doing this term:

Conisbrough Class have had another busy term and have been inclusive of each other sharing the classroom space and lesson time together.

In maths we have been looking at how we use numbers in the real world solving practical problems for example figuring how much 3 tickets would cost when we know the price of one. We have been problem solving using fractions and understanding that the bigger the denominator, the smaller amount the fraction represents. We'd rather share a cake with 6 people than 12!

In English, we continue to be interested in current affairs where there is always a news story to shock us, lots of debate and students enjoy finding funny and unusual stories to answer questions about.

During cookery lessons, Conisbrough have not only considered the different food groups and the food pyramid to create their own recipes, healthy options, but also asking each other to try making the meals that they enjoy. We have made burgers, fajita risotto and teriyaki chicken noodles. Students are increasingly more independent in their cooking skills.

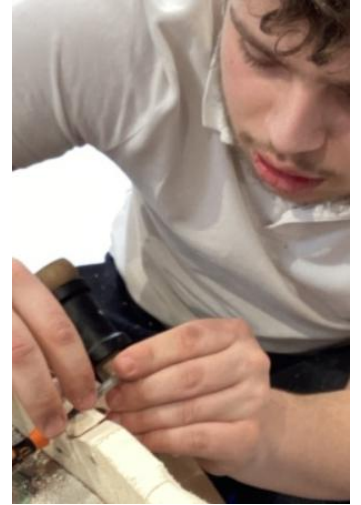

We continue to be involved in the local community, going to the shops, visiting the care farm, parkour and climbing. Berkshire Youth have been coming to see us once a week also to tell us about projects withing the community. It has been great to get to know them this term.

Everyone loves DT and we all have individual projects we are working on. Lots of us enjoy drop-in sessions at the end of the day to continue with our designs or join in gardening.

Happy Easter to you. 

*Conisbrough Team
Karin, Jonny, Lauren,
Lauren and Donna*

Some photos of us!

Dates & Points to remember:

Last day of term: Friday 4th April 2025

First day back: Tuesday 22nd April 2025
