Class Name: Totnes

Term: Spring 2

Term 4 2024-2025

Topic: Fab Fashion!

What we have been doing this term:

Some photos of us!

A term that started off with Pancake Day falling on the same day as our cooking day, so lots of pancakes were made and eaten!

In P.E, the class have been learning various shots in badminton and have enjoyed the competition of having games against each other.

Earlier on in the term, the class took part in a scientific investigation through our topic lessons. Everyone had to test the absorbency of different fabrics and work out how to make the investigation as fair and accurate as possible.

On Thursday afternoons, the class have been taking part in a sewing project and have been attempting to make several items. It has been great to see the boys doing something practical with their hands and have a go at using the sewing machine too!

As part of PSHE, we have been looking at body image and how it can impact us. It's been brilliant to hear discussion around influences on the boys and the impact of social media on boys and the way they think they should look. A good point was made around the difference of a sumo wrestler and a footballer!!

Each of the students continue to work hard in English and Maths. We have read the story Bill's New Frock and discussed gender stereotypes in each of the chapters. In Maths, we have focussed on measurement and the importance of using the appropriate standardised units when measuring.

Have a great 2 weeks off! Totnes Team
